

Swami Ramanand Teerth Marathwada University, Nanded
School of Mathematical Sciences
Celebration of National Mathematics Day-2021
Mathematical Genius Srinivasa Ramanujan's birth Anniversary

Popular Math Lectures (Online)

20 December 2021

National Mathematics Day is celebrated on 22nd December every year across the country honouring the birth anniversary of Mathematical genius Srinivasa Ramanujan. As a part of this celebration, we are organizing popular math lectures on 20 December 2021 by inviting eminent Mathematicians to share their knowledge.

Invited speakers

- Dr. I. K. Rana, Retired Professor, IIT Bombay
- Dr. P. K. Sahoo, BITS Pilani, Hyderabad
- Dr. J. K. Singh, Netaji Subash Institute of Technology, New Delhi
- Dr. T. Asir, Madurai Kamaraj University, Madurai

Who can attend?

UG/PG Students, Research Scholars and Teachers from Mathematical Sciences background.

How to attend the lectures?

Lectures will be organized on Zoom platform and same will be live telecasted through YouTube. Interested people can register for free using the following link: <https://forms.gle/Y2X6m47ZKgPRxNnL8>

Join the telegram group for program schedule, zoom link, YouTube link and other information: <https://t.me/+xR-jS2CMo28zNDg1>

Certificates will be issued to those who attend all the sessions

Dr. B. Surendranath Reddy
Coordinator, NMD-2021

Dr. D. D. Pawar
Coordinator, NMD-2021

Catalysed and supported by National Council for Science and Technology Communication, DST, Govt. of India and Rajiv Gandhi Science and Technology Commission, Govt. of Maharashtra.

DPSS's **Rajiv Gandhi Night College of Arts & Commerce, Mumbai** in association with **ScoreAchievers** have started **Career Guidance Series** for all the college students.

This Week we are conduction Webinar on
Career opportunities in Banking Sector

Guest Speaker -

Mr. Ravi Hirve
MBA (Finance)
DY Manager, ICICI Bank (Mumbai, India)

About Guest Speaker -

Having rich experience in private
sector banking. Worked with

message

Thus the partition induced by S is given by

$$\{\{1, 5\}, \{2\}, \{3\}, \{4\}\}.$$

Exercise: 1.2

1. List all possible relation from $A = \{a, b, c\}$ to $B = \{1\}$.
2. On \mathbb{R} consider the relation R defined by xRy if and only if $x < y$. Is this relation anti-symmetric?
3. Let $A = \{1, 2, 3, 4\}$. Determine which of the relations on A are reflexive, symmetric, transitive or equivalence relation.
 - (i) $R_1 = \{(1, 1), (1, 2), (2, 2), (3, 3), (4, 4), (2, 1), (2, 3)\}$
 - (ii) $R_2 = \{(1, 1), (1, 3), (2, 2), (3, 3), (3, 1)\}$
 - (iii) $R_3 = \{(2, 2), (3, 2), (1, 4), (1, 3), (4, 3)\}$
 - (iv) $R_4 = \{(1, 1), (1, 3), (2, 2), (3, 3), (2, 3), (2, 1), (4, 4), (3, 1)\}$.

On $X =$ set of lines in planes, consider the relation R defined by $l_1 R l_2$ if and only if l_1 intersects l_2 . Is this relation reflexive, symmetric, anti-symmetric or transitive?

On $X =$ set of circles in planes, consider the relation R defined by $c_1 R c_2$ if and only if c_1 and c_2 have same radius. Is this relation reflexive, symmetric, anti-symmetric or transitive?
